To Whom it May Concern:

Pro Scapes, Inc. has been providing multiple site construction and maintenance services for our company for several years. Their service work has been excellent, per the schedule anticipated, and is always completed in a professional manner.

Our business is managing office and retail properties, thus one of our goals is achieving tenant satisfaction. Typically, tenants only contact us with complaints rather than compliments. Pro Scapes has bucked that trend in generating compliments rather than complaints from tenants.

One of Pro Scapes, Inc.'s strong points is their ability to understand and control their costs. This also makes them a useful resource in analyzing costs for various activities.

Pro Scapes, Inc. is certainly an excellent representation of the site maintenance industry.

Sincerely,

*The Widewaters Group, Inc.*

David R. Smith, RPA  
Property Manager
